

D2 FINAL CHECKS

AGENDA

- 
- 01 Checking D1 Feedback
 - 02 Checking Class Diagram
 - 03 Checking Sequence Diagram
 - 04 Checking company feedback
 - 05 Linking to Next Weeks

section 1

CHECKING D1 FEEDBACK

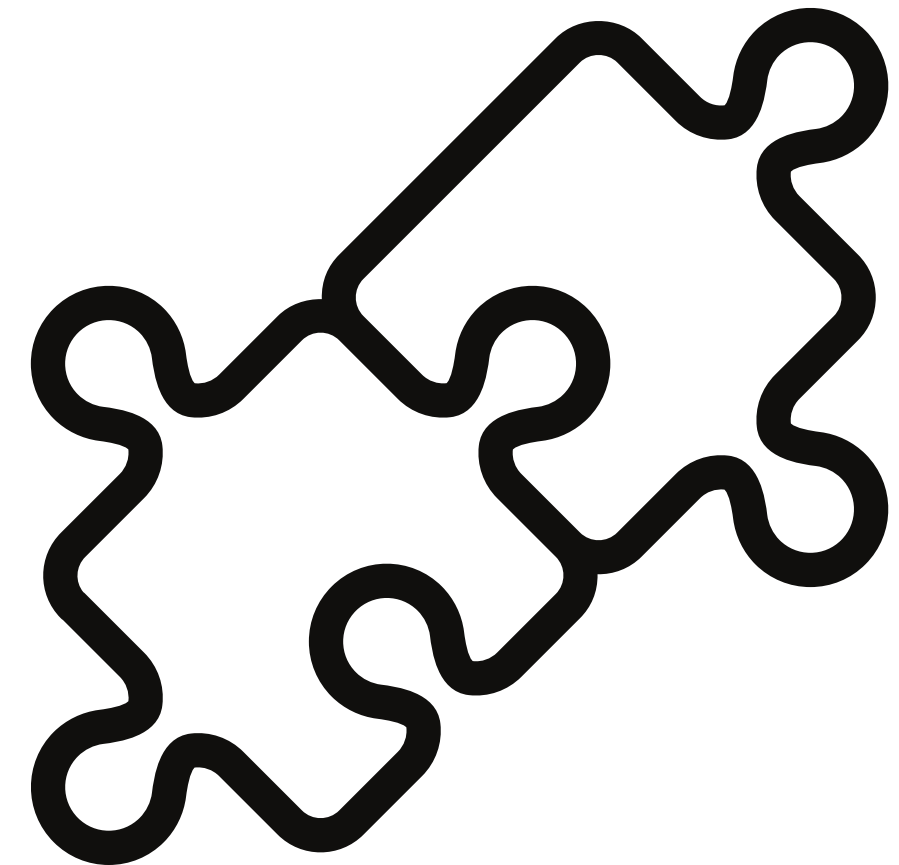

1.1. Checking for D1 enhancement

Reflect on the answers to D1 related to your chosen case study to help improve your D2 submission.

Activity

With group members/peers/tutor, discuss:

- Which answers from D1 are missing from the D2 submission?
- How can you extend the answers from D1 to make your D2 submission stand out?

section 2

CHECKING CLASS DIAGRAM

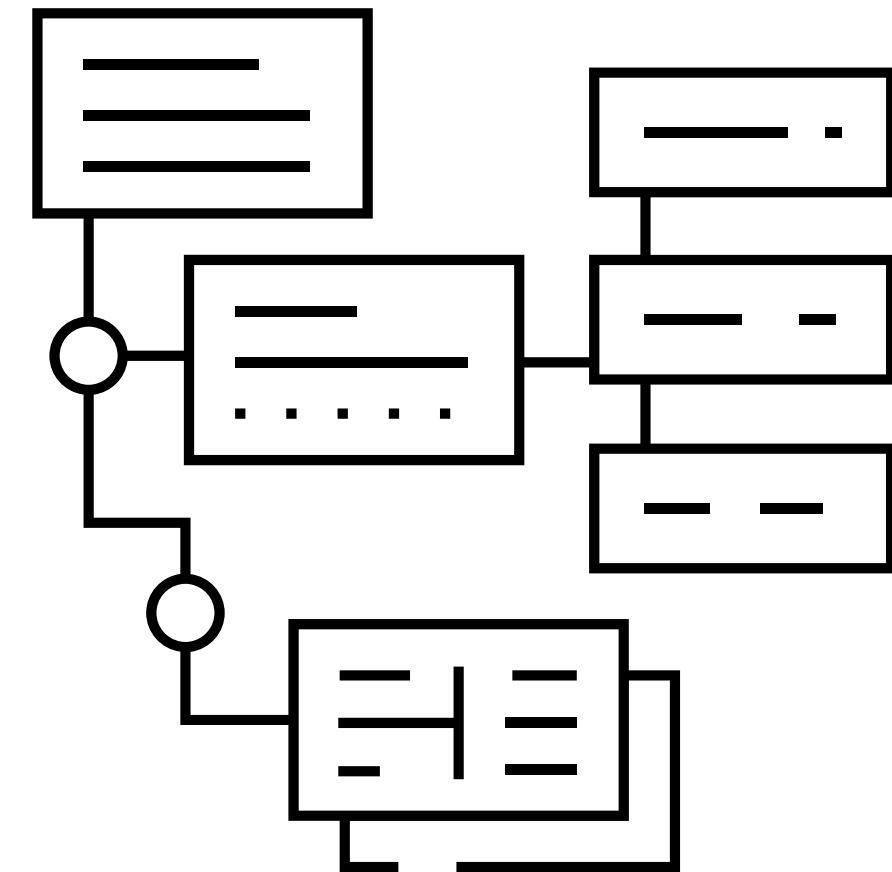

2.1. Checking class diagram

The class diagram is a section that you did not have to do in D1, so it requires closer attention for completion.

Activity

For your class diagram, check:

- Class diagram marking criteria from the assessment brief is considered
- The class diagram is clearly visible in your submission
- The class diagram uses the same naming conventions as the functional requirements and covers all of them.

section 3

CHECKING SEQUENCE DIAGRAM

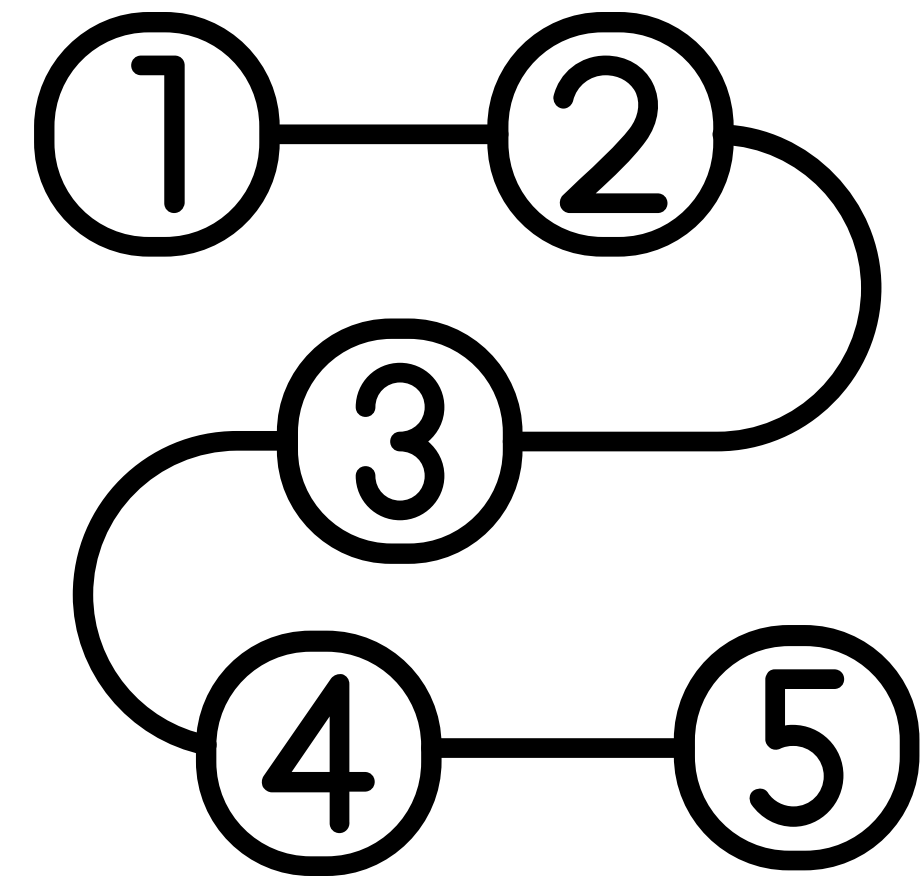

3.1. Checking sequence diagram

The sequence diagram is a section that you did not have to do in D1, so it requires closer attention for completion.

Activity

For your sequence diagram, check:

- Sequence diagram marking criteria from the assessment brief is considered
- The sequence diagram is clearly visible in your submission
- The sequence diagram uses the same method, class, variable names as the class diagram.
- The diagram aligns with the same use case specification you include in your D2 submission.

section 4

CHECKING COMPANY FEEDBACK

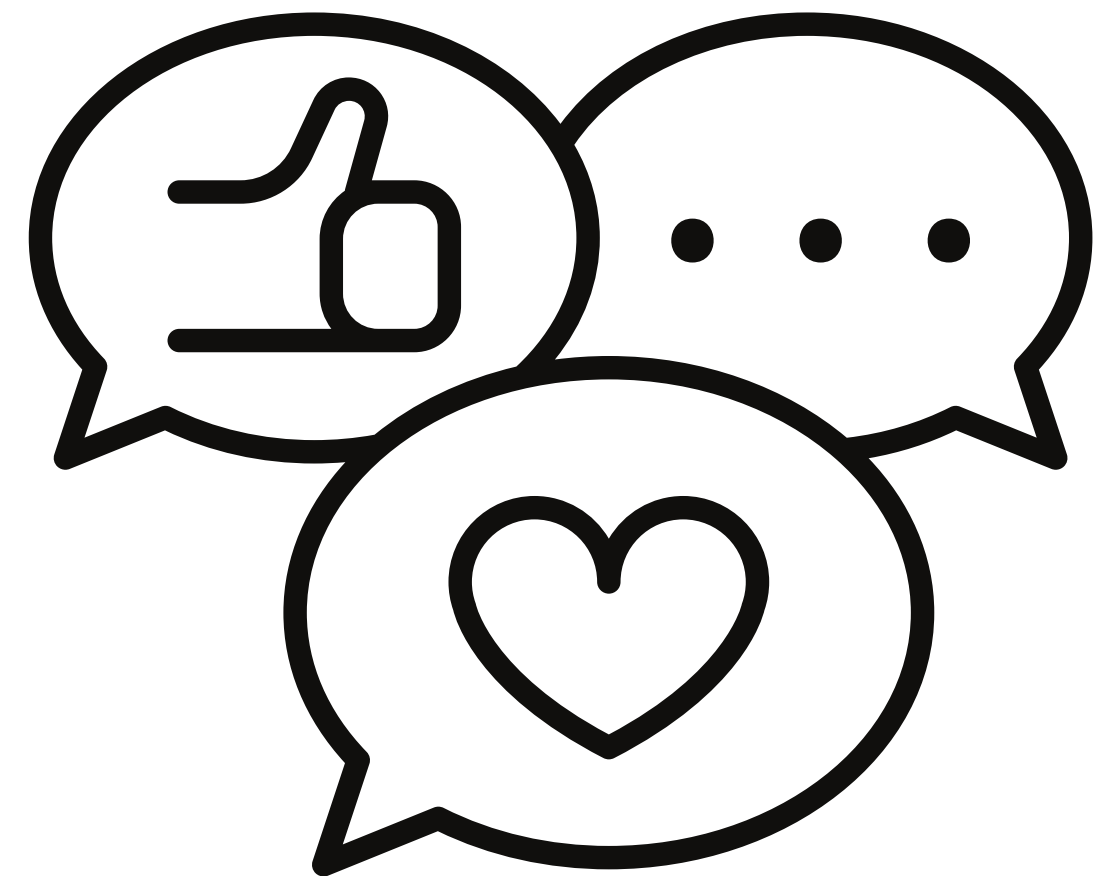

4.1. Checking company feedback

Where applicable, the company feedback on optional D2 draft submissions is a great opportunity to enhance your solution for D2 and beyond.

Activity

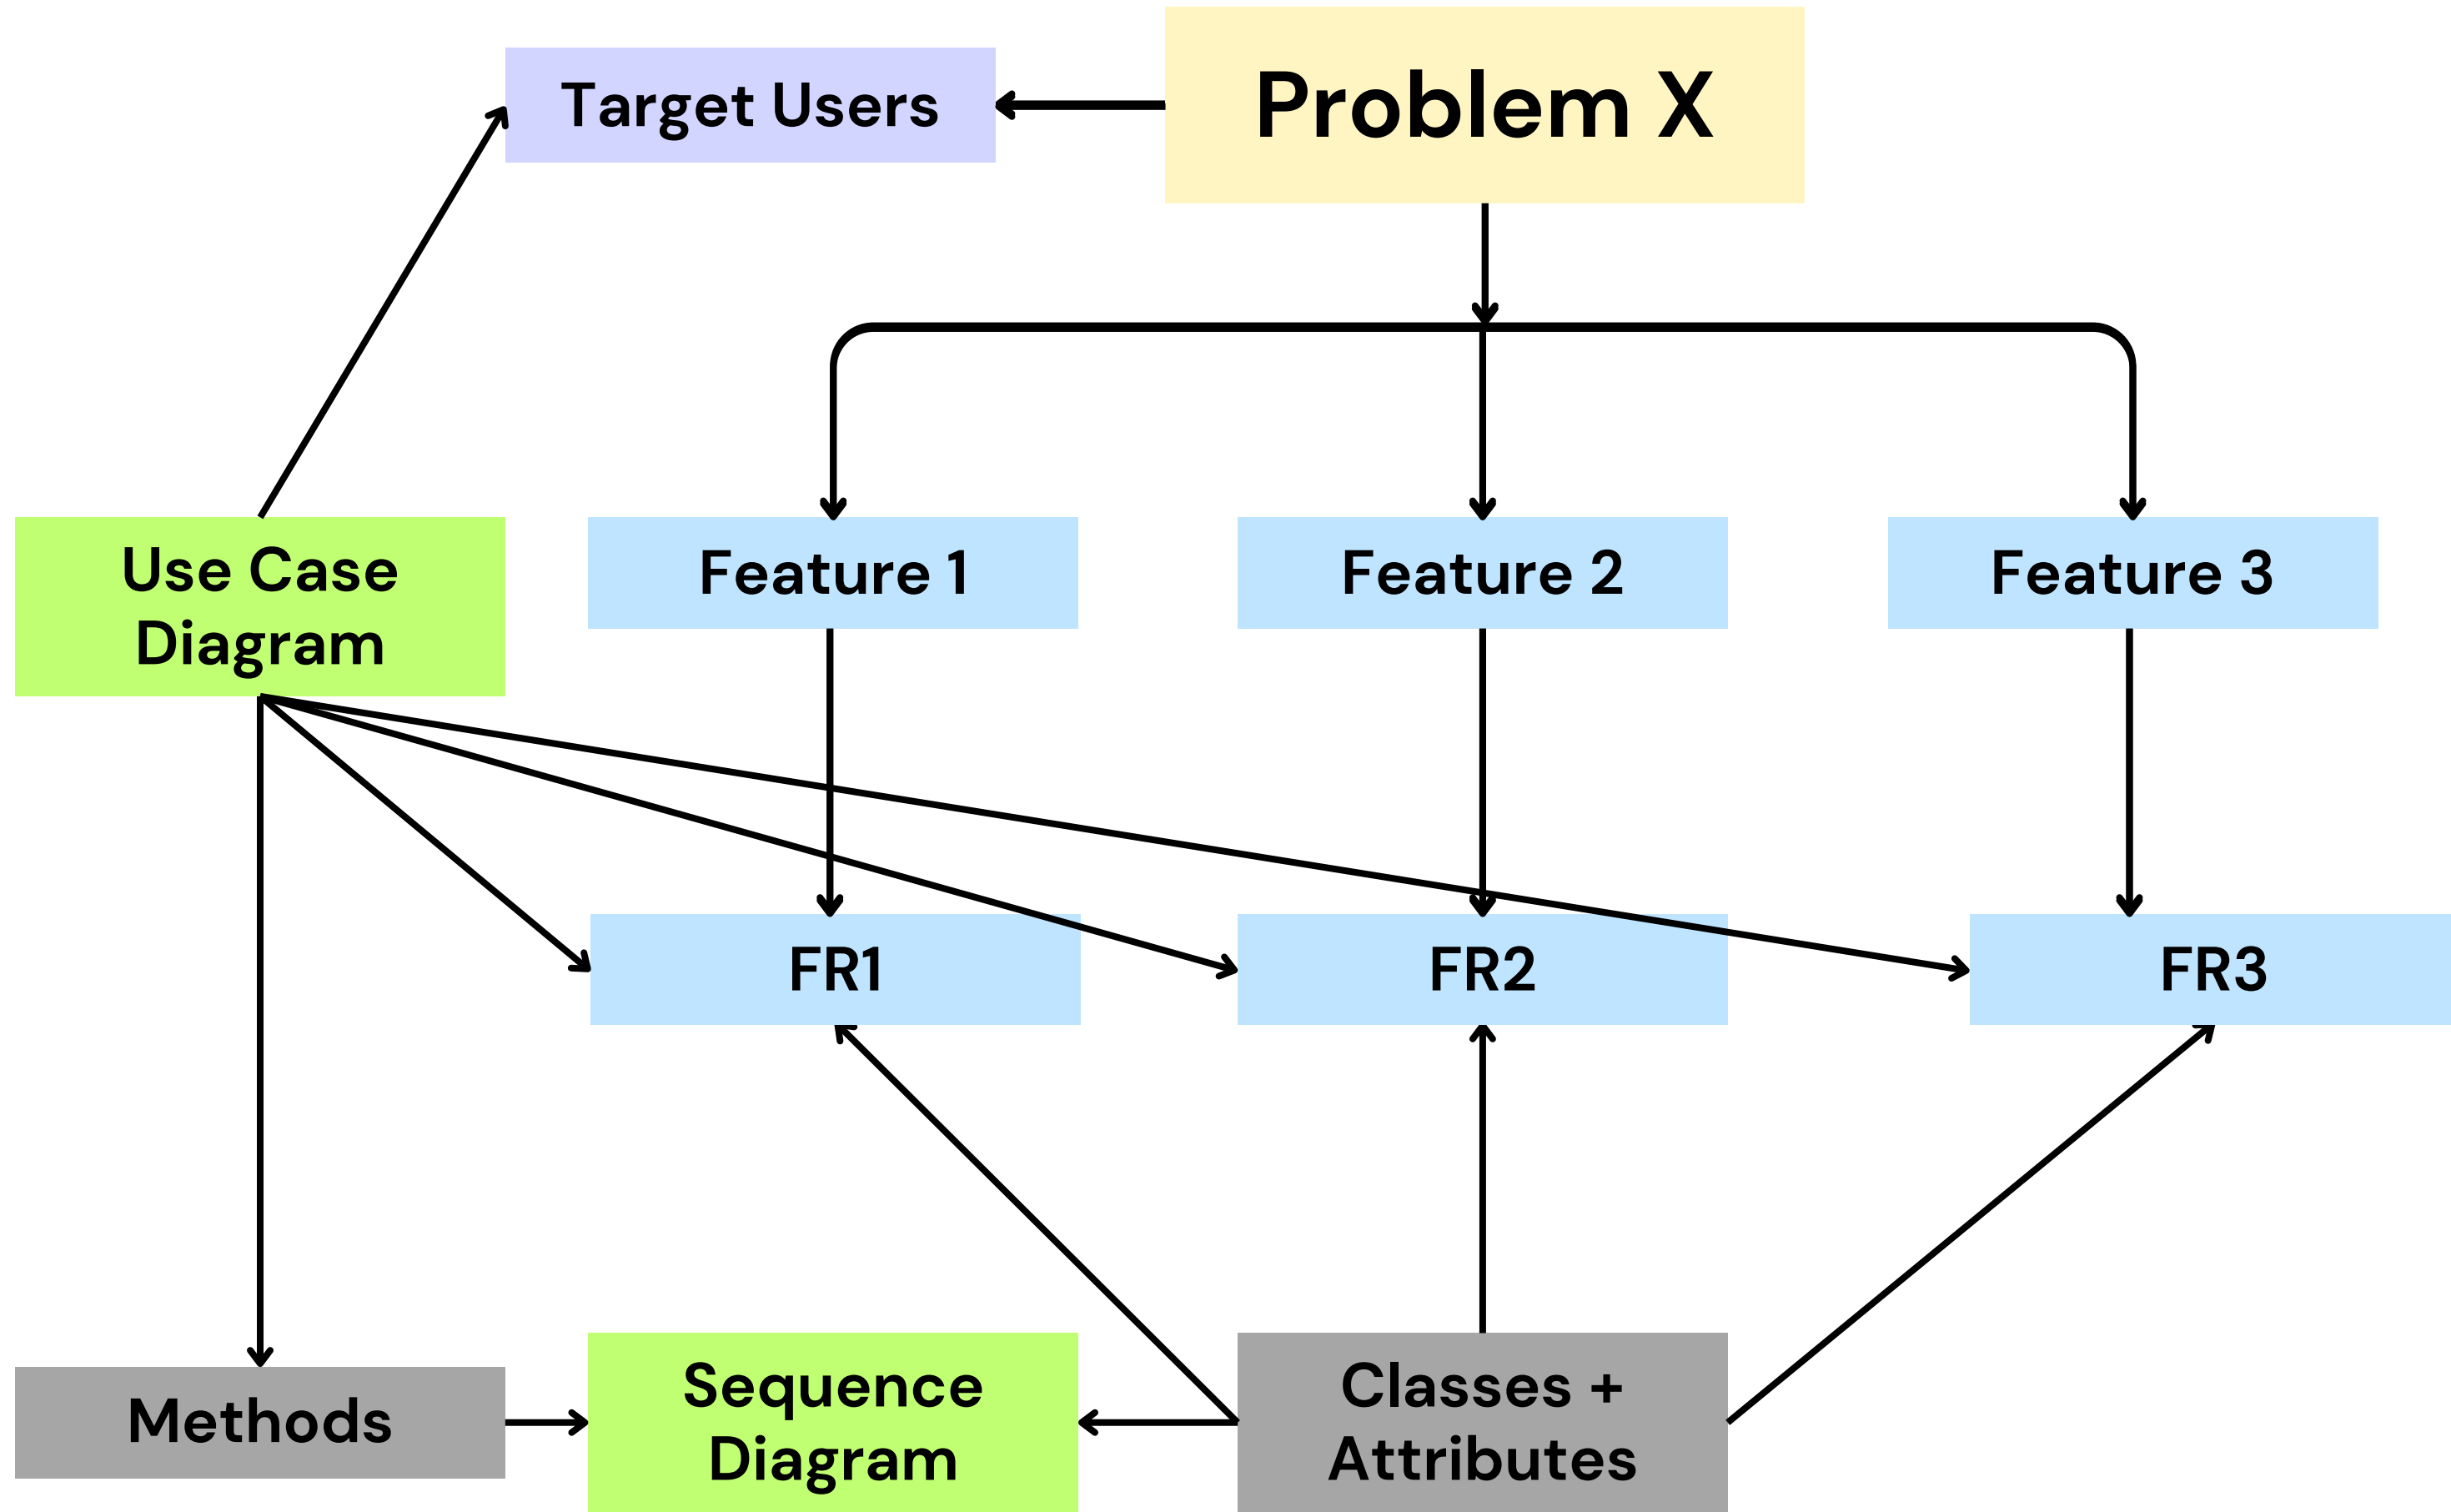

Referring to Moodle feedback on the optional D2 draft submission, check:

- Company feedback points addressed
- Note taken of feedback points to be considered for D3 if more time is needed
