

## **READ CAREFULLY BEFORE FINDING YOUR SLOT:**

When preparing the slides, please ensure the following:

- Put the group number as a header/footer on all of your slides.
- Put your individual name on the slides you are presenting as an individual. This will let us know to give you marks for your individual presentation.

When presenting:

1. Only the presenting group will be in the room, so please come straight to your allocated slot and please leave the room after your presentation.
2. Make sure you have your slides loaded on your laptop.
3. You will shortly receive a calendar invite for the duration of the whole lab session where your presentation slot is. If any of the team members are joining online, then use this calendar invite to join the meeting and share screen.
4. Any team members who will be joining online will need to be in a quiet space and turn on the video camera while presenting their bit.
5. You will be given 10 minutes for the presentation + 5 minutes Q&A from the companies.
6. If your group includes member(s) with supporting statements, you will be given 13 minutes for the presentation.

Timetables and attendance arrangements:

1. You will be marked as present for the week commencing 27<sup>th</sup> April if you attend your presentation. You do not need to additionally attend your usual lab session for that week.
2. There will be no software design lectures on Monday 27<sup>th</sup> April.
3. If you can't make it to your allocated slot, you can apply for an EC to have an online slot in later weeks, but that would not be with the company.
